

Fossesholm Herregård

Fossesholm Herregård is an event of culture for the whole family. Today the Manor house is a museum where you can enjoy the beautiful interiors the way they were during the glorious times of the 1700-ies.

The rest of the farm offers a doll exhibit, Resistance museum and different art exhibits. Here is also an arts and crafts shop and a small café.

The children can dress up as princesses or kings; they can jump in the hay or meet goats, chickens and proud peacocks.

Conference and party facilities

It is possible to arrange conferences and parties at Fossesholm all year around. We have conference rooms suitable for weddings, confirmations, commemorative gatherings, courses, concerts etc. We can also receive groups for guided tours if agreed in advance.

In the reconstructed barn and in Steinfjøset (the stone barn) we have rooms suitable for arrangements for 20 as well as up to 200 persons. The framework around it all is the Cappelen family magnificent premises dating back to the 1760-ies.

Your arrangement may be combined with guided touring of the manor, a visit in the arts and crafts shop, the Resistance Museum or a boat trip on the Eikern lake.
